Bridge School CVI Webinar

Resources & Support Walker Users

The Bridge School website offers a free course of study with articles and photos of students participating in classroom activities including photos of students.
http://curriculum.bridgeschool.org/areas/mobilityat

Dr Carole Zangari posted a 4-part series on the Bridge School Support Walker Experience with photos on her website. Type the title of the 4 articles in the search box window. https//praacticalaac.org

Part 1: "From Wheelchair to Walker. The Cascading Benefits of Hands-Free Mobility."
Part 2: "From Wheelchair to Hands Free Walker for Preschool Children with AAC Needs.
Part 3: "How We Do It: A Support Walker Mobility Program for Elementary Students with AAC Needs."
Part 4: How We Do it: "AAC Strategies & Adaptations for Students in Support Walkers, Assessment & Funding."

***I Can Walk 2*:**
http://www.icanwalk2.com/benefits.html
A website describing the benefits of self-initiated mobility which includes information on the KidWalk Support Walker along with information on mobility and videos.

Ballet Guide Book
http://bbi.syr.edu/projects/fit_in/docs/ballet_guidebook.pdf
Available as a PDF from Syracuse University as a free download. It provides information on cerebral palsy, how to encourage more motor learning with children, how to encourage body awareness, participation, and ideas for an adapted ballet program
